## Introduction

DIS INDUSTRIAL SOLUTIONS GmbH Corporate DIS is a limited liability Company established in 2002 in Frankfurt – Germany and supplies a full range of commercial and high-quality industrial products standards. The main focus lies on the international trade with our proven track record of supplying high-quality material combined with competitive pricing, just-in-time delivery.

We have a broad portfolio of successfully completed projects across a range of sectors including Residential, Restoration/Refurbishment, Hospitality, Commercial, Industrial, and Healthcare. We have built our reputation on our client focus and hands-on approach. We are proud of the fact that the majority of our workload comes from repeat business and that we have a strong reputation for our competitive edge and reliable execution of all projects undertaken. This is achieved through our relentless attention to detail and an experienced team with the drive and customer focus to ensure client satisfaction is a given on all DIS projects.

With our extensive knowledge of the international market and our presence in Germany, Switzerland and Egypt; and our Partners in Sudan, Kuwait, Singapore and and Maroc; we are well placed to satisfy needs and requirements of all our clients all over the world.

Our ambition and goals for almost a century have always been to deliver quality projects and value for money to our clients; our success and reputation today have been testament to this wisdom.

## DIS Profile

### *At DIS*

*We Listen to your needs,  
Design it in your specifications,  
And Build it to your dreams...*

DIS Industrial Solutions specializes in Engineering, Procurement and Construction. We are one of the largest contractors in the region and have helped build some of the area's most recognizable landmarks. Our team bring their technical knowledge, experience, and resourcefulness to the delivery of our construction services.

Driven by a commitment to continuous improvement, DIS embraces Building Information Modeling and lean construction methods to improve efficiency and enhance client value.

Our firm is capable of stepping in at any stage of a development project, from planning and entitlements through construction, and successfully seeing it through to completion. Regardless of the service provided, our projects are all grounded in a strong sense of reality and understanding of what it takes to build a quality project globally.

## Mission

Dedicated to demonstrate proficiency in engineering, procurement and construction management of projects by maintaining the highest level of safety, integrity and innovation, while remaining ecological mindful and fostering growth in our employees and communities.

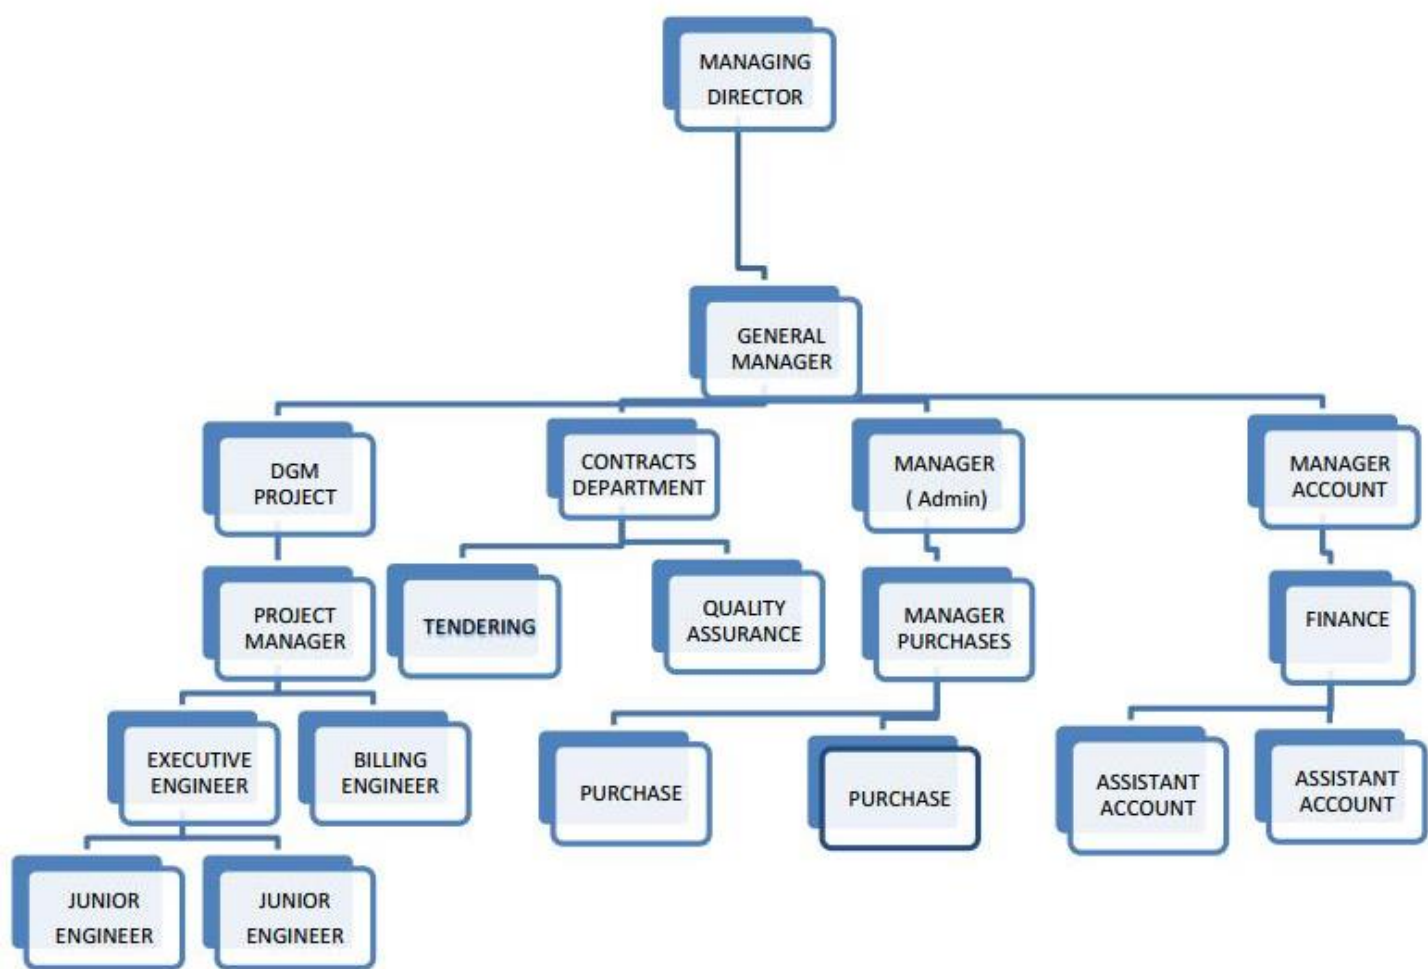

## Vision

To be the most preferred engineering construction company in the region providing cost effective, reliable engineering solutions for value minded clients and high performing employees.

# Organizational Structure

The success of any project is directly responsible to its team. Hence, every project that, we have undertaken headed by a Project Manager, who manages a highly organized team of Project Engineers, Site Supervisors along with a highly skilled and dedicated work force. We have possessed great execution capabilities. Our staff and field personnel are also fully trained in our systematic procedures and maintain the highest professional standards. Moreover, our strong infrastructure makes us one of the largest, most experienced and professionally managed companies in the industry.

## Environmental Management

At DIS, we contribute to our environments and develop structures which may last centuries. With this in mind, we are future centric in terms of the design and technology we apply. We recognize the importance of utilizing the most modern and most sustainable materials within the construction process. We are proud to have built quite a number of iconic projects which have broken new grounds in terms of sustainable materials and innovative construction techniques.

The area of the provision of more and more sustainable and renewable buildings is constantly evolving and changing and we are operating in a very exciting and dynamic times. DIS continue to innovate with every project every day, and rigorously apply our Environmental Management Systems to achieve this.

*“We plan and act for the future- for the long term good of our company, our customers and our environment.”*

## Why DIS?

DIS is concerned with procuring all of the goods, services, and work that is vital to the client. It involves the process of selecting vendors, establishing payment terms, strategic vetting, the selection of contracts, and actual purchasing of goods. We are concerned to manage the project by initiating, planning, executing, controlling, and closing the work of a team to achieve specific goals and meet specific success criteria at the specified time.

For this...
